

# Ladylike

## Big Wreck

So when she lays down it'll be  
    With me  
Lord, she'll lay down with me  
And when she walks out it'll be  
    On me  
Lord, she'll walk out on me  
    When she kneeling it'll be  
    For me  
Lord, she's kneeling for me  
And if I need you to be secure  
    It's cause I'm not  
You're so ladylike and more  
    When she focused it'll be  
    On me  
Lord, she's focused on me  
And if she walks with it'll be  
  
    With me  
    She's walking with me  
And if I need you to be secure  
    It's cause I'm not  
You're so ladylike and more  
    If she wishes it'll be  
    On me  
Lord, she's wishing on me  
    And when she's hopeless  
Lord, she's hopeless with me  
And if I need you to be secure  
    It's cause I'm not  
    You're ladylike  
I need you to be secure if I'm not  
    You're ladylike and more
