Make It Real

Spectalicious

Where we walk, down the road, everyday
With a plastic smile and we wave like we're in a parade
Oh, and then we pass one another
And nothing but a, "How do you do?"
Oh, but it make me smile
If we'd stop for awhile
And just give me the truth now
And we can make it real
Open your heart
'Cause that's when you start to truly feel
We can make it real
Look in my eyes
You feel it inside, yeah, I know you will
We can make it real, now now
And we can make it
Let your mind, take a walk, in the rain
Let your head roll back, taste the joy, remember the pain
'Cause we can talk about the weather
We can weather it together my friend
Yes, we can
And the sun will shine on your heart and mine
And we'll feel it again and again and again
We can make it real
Open your heart
'Cause that's when you start to truly feel
We can make it real
Look in my eyes
You'll feel it inside, yeah, I know you will
We can make it real, yeah
No, we can make it real
This life that we're livin'
It's all that we're given
It's all little precious time
'Cause now is the moment
Let your emotions breathe in the open sky, fly
Baby, try to make it real, ooo
We can make it real, now
Baby, try to make it real
Baby we can try

We can make it
We can make it real, whoa
We can make it real, whoa
Open your heart
'Cause that's when you start to truly feel
We can make it real
Look in my eyes
You'll feel it inside, yeah, I know you will
We can make it real
Open your heart
'Cause that's when you start to truly feel, now now
We can make it real
Look in my eyes
Oh, we can make it real
We can make it real, now now
Make it real
