

# Drag It Down (2005 Digital Remaster)

## New Model Army

They started work this morning down at city square  
They're pulling down the statues of our great grandfather's hero  
The new books said he wasn't such a great man after all  
And anyway remember that the times they are a-changing Pull it down, drag it down  
Till there's nothing to look up to  
But the brand names on the posters all around They proved on television last night that God was just a lie  
He never made the world at all  
It was just some sweet old fashioned right  
So melt down all the ornaments, move out all the graves  
And let us build the disco that we need for our young braves Pull it down, drag it down  
Till the hopes and dreams of all the ages  
Past are shattered on the ground
