

# Dull Tool (Cabo Blanco Edit)

## Fiona Apple

Come on out, come on out  
Whered you go, whered you go  
I dont mean to play hereFigure out, figure out  
What you know, what you know  
Figure out how to say it clearCause youre more likely to get cut with a dull tool  
Than a sharp one  
You, you stuck around  
You stuck around  
You stuck around  
Until you got me  
And then, then you dropped meYou, you dont kiss when you kiss  
You dont fuck when you fuck  
You dont say what you mean  
You dont talk loud enoughNo pulse in your impulse, celebrations impossibleYou forgot the difference between  
equanimity and passivity  
You forgot you have to try, you have to try, you have to try  
You forgot that glorious feeling that you get when you get the truth  
So tell that girl you dont love her  
And if you do, tell her two timesCause youre more likely to get cut with a dull tool  
Than a sharp oneYou, you dont kiss when you kiss  
You dont fuck when you fuck  
You dont say what you mean  
You dont talk loud enoughNo pulse in your impulse, celebrations impossibleAnd you dont kiss when you kiss  
You dont fuck when you fuck  
You dont say what you mean  
You dont talk loud enoughNo pulse in your impulse, celebrations impossibleYou dont kiss when you kiss  
You dont fuck when you fuck  
You dont say what you mean  
You dont talk loud enoughNo pulse in your impulse, celebrations impossibleWhen you dont kiss when you kiss  
You dont fuck when you fuck  
You dont say what you mean  
You dont talk loud enoughNo pulse in your impulse, celebrations impossible  
Celebrations impossible  
Celebrations impossible  
Celebrations impossible
