## Stereoface

I am a memory, I never existed and now I am nothing  
Her name, a single word melts me, takes me to the ground  
Only alive, can't she see I'm destroyed by yesterdaysAnd do I gain?I could only dream for chance to side with  
me  
Inquire, ingest, implode  
Let this not be the dissemblance of me  
Another night with arms still empty, I'm destroyedAnd do I gain  
Or just fall?
