

Coming Around Again

Simon Webbe

I been sitting in the darkness
But the sunlights creeping in
Now the ice is slowly melting
In my soul and in my skin All the good times my friend, yeah, yeah
Are coming around again
Oh yeah I been thinking, reminiscing
Of better nights and better days
Hiding in a refuge of memories I've made
I got a feeling within, within
Its coming around again It's coming around again
We been so long waiting
For the all time high
We got a damn good reason
So put your troubles aside And all your winter sorrows
Hang em out to dry
Throw it away, you gotta throw it away
All the colorful days my friend
Are coming around again Thats right
Yeah yeah yeah I got someone waiting for me
It's been so long since we met
And I may not be your salvation
But Ill offer nonetheless And if like me you wanna take that dance
It's coming around again
Ooh yeah It's coming around again
We been so long waiting
For the all time high
We got a damn good reason
So put your troubles aside And all your winter sorrows
Hang em out to dry
Throw it away, you gotta throw it away
All the colorful days my friend
Are coming around again Yeah yeah mmm
Yeah yeah I can feel a change of fortune
No more riding on my love
Feel the weight is off my shoulders
As my feet become unstuck And all the good times on which we do depend
Oh its coming around again We been so long waiting
For the all time high
We got a damn good reason

So put your troubles aside And all your winter sorrows

Hang em out to dry

Throw it away, you gotta throw it away

All the colorful days my friend

Are coming around again Yeah yeah

Whoa sunshine

Yeah yeah

It's coming around again Whoa

Yeah yeah

Good times

It's coming around again Yeah yeah, whoa

It's like the old times

Yeah yeah

It's coming around again Yeah yeah

The fine lines

It's coming around again Yeah yeah

It's coming around again
