

Big Harlan Taylor

George Jones

Oh, the ways of the world and the wants of a woman
If I figured them all out it would take many years I once had a sweetheart, the fairest of maidens
She outshined all others that I'd known by far
I had a friend, a big fella, named Big Harlan Taylor
Harlan had a rubber-tired, new shiny car Oh, the ways of the world and the wants of a woman
If I figured them all out it would take many years By the wants of a woman she fell for Big Harlan
I tried, but in vain, for to take my own life
Suddenly, I had lost all my will to keep livin'
She had lost her desire to become my young wife Oh, the ways of the world and the wants of a woman
If I figured them all out it would take many years I wanted revenge and waylaid for Big Harlan
Then I started wonderin' what good would it do
If a rubber-tired, new shiny car's her ambition
Then she can just have it and Big Harlan, too Oh, the ways of the world and the wants of a woman
If I figured them all out it would take many years If I figured them all out it would take many years
