

# Mangled

Steve Westfield

Demolition of bodies, smashed and broken  
Piles of guts, moist and steaming  
Tendons severing, brains are boiling  
Unburied corpses in state of decay Rotten limbs start to ferment  
Torso's torn in two  
Skin ripped off to expose muscle tissue  
Butchered for human stew Crawl into the cadaver head first  
Eat your way through the guts  
The purgent smell of decaying innards  
Is enough to drive you nuts The spleen of the carcass is oozing from your mouth  
As you chew on the piss filled kidney's  
Suck the vomit through intestines  
Leaving nothing but bones Violently cutting, seriously hacking  
Sounds of death fill the air  
Bones sticking out, ripped from sockets  
Blood spurting everywhere Victim lying dead, neck but no head  
Smearing remains on your own face  
Violently cutting, seriously hacking  
Sounds of death fill the air Blistering flesh, another death  
Stiffened bones, morbid groans  
Evil mind, brain oozing slime, feel the pain  
Body weak brain contorting, fluid flowing from your organs Veins torn our mangled festering flesh  
Quivering cadaver, ligaments stretched around your own neck  
Drink the pus, mangled severed dick  
Bloody bowels, the gutted corpse now lies hollow Feeding on feces, mangled amputated arms  
Crushing legs, head is ripped right off  
Your shoulders thrown in a pile, mangled limbs rearranged  
Head on backwards, a humongous heap of twisting flesh  
Sewn together, mangled, mangled His knife plunges in your cold battered body  
Blood seeping through the jagged wounds he cuts  
Unbearable pain, give into death  
Your life slips away, perish in blood Menacing madman mutilating, destroying, disfiguring, dead you'll be  
Crushing, cracking, killing you, annihilation, desecration  
Born through modern day science man has made his last mistake  
A creature so hideously horrible leaving nothing to waste Evil has a new face, a mangled horrible face  
His views are those of death, nothing will stop his lust  
Slicing victims left to decay, listening to their mortal cries  
Inhuman, immortal, bestial, now he owns your soul Crawl into the cadaver head first, eat your way through the  
guts

The pungent smell of decaying innards is enough to drive you nuts  
The spleen of the carcass is oozing from your mouth  
As you chew on the piss filled kidney's  
Suck the vomit through intestines, leaving nothing but bones  
Human converted to beast, the perfect killing  
machine  
Psychotic structure of brain tissue, murder his only memory  
Dependant on death, crushing your head  
I'm addicted to blood, chew the decay  
The weakened man must die, tearing out his insides  
Smashing all the bones, hear his tormenting groans
