

It Matters to Me

Faith Hill

Baby tell me where'd you ever learn
To fight without sayin' a word
Then waltz back into my life
Like it's all gonna be alright
Don't you know how much it hurts When we don't talk
When we don't touch
When it doesn't feel like we're even in love
It matters to me When I don't know what to say
Don't know what to do
Don't know if it really even matters to you
How can I make you see
It matters to me Maybe I still don't understand
The distance between a woman and a man
So tell me how far it is
And how you can love like this
'Cause I'm not sure I can When we don't talk
When we don't touch
When it doesn't feel like we're even in love
It matters to me When I don't know what to say
Don't know what to do
Don't know if it really even matters to you
How can I make you see
It matters to me Whoa I don't know what to say
Don't know what to do
Don't know if it really even matters to you
How can I make you see
Oh, it matters to me
Oh, it matters to me
It matters to me
