Your Eyes

Eskimo Joe

When I go and look into your eyes
I feel like I could drown
I look around
To find some air
But I can't find it anywhere
When I wake up in the morning
Looking for that early warning
A sound to say
That I'm still near
But baby don't cry
Your daddy's here
Every time I look into your eyes
Every time I look into your eyes
Every time I look into your eyes
Your eyes
Another day another battle
I won't let my soul get rattled
They're only words
They don't mean a thing
But baby don't worry I'm listening

Every time I look into your eyes
Every time I look into your eyes
Every time I look into your eyes
Your eyes
Always the one
Always the one
Always the one
Having some fun
Having some fun
Having some fun
On your own
In the town
Wih a short dress on
Looking for someone that you can hang off
So hang on
So hang on
Every time I look into your eyes
Every time I look into your eyes

Every time I look into your eyes
Your eyes
