

# Listen People

## Herman's Hermits

Listen people to what I say

I say everybody's got to have their day And don't you know that, everybody's got to love somebody sometime

Everybody's got to win a heart, everybody's got to love somebody sometime

When you do, I hope you never part I once found love, found love just like you

But then he came, he might come to you And don't you know that, everybody's got to lose somebody sometime

But everybody can part, everybody's got to lose somebody sometime

So take care that you don't lose your heart Take my advice and you'll always find, you'll be happy all of the time

Take my advice and you will see, you'll be happy as you can be Listen people to what I say

I say everybody's got to have their day And don't you know that, everybody's got to love somebody sometime

Everybody's got to win a heart, everybody's got to love somebody sometime

When you do, I hope you never part, you never part Listen people, listen people
