

# Clockwork

Ashley Roberts

I walked across town just to show you I care  
An old familiar place, but your face isn't there  
I didn't want to call since we've crossed all the wires  
But you know I don't mind that you're taking your time  
It's in my head  
It's in my heart  
It's taking over like clockwork  
It's in my head  
It's in my heart  
And it won't stop, it's like  
Oh oh I don't wanna fight it  
Oh oh, you know that it's in my head  
It's in my heart  
It's taking over like clockwork  
I love how you survive when you're losing a fight  
There's no need, no regrets  
We don't play to rewind!  
And we stay still standing when we're standing still  
And you know I don't mind when we got time to kill  
It's in my head  
It's in my heart  
It's taking over like clockwork  
It's in my head,  
It's in my heart  
And it won't stop, it's like clockwork  
Oh oh I don't wanna fight it  
Oh oh, you know that it's in my head  
It's in my heart,  
It's taking over like clockwork  
In my head,  
It's ticking in my heart  
And it won't stop like clockwork  
In my head,  
It's ticking in my heart  
And it won't stop like clockwork  
In my head,  
It's ticking in my heart  
And it won't stop like clockwork  
You know it's always taking over,  
In my head, in my heart  
It's in my head,  
It's in my heart  
It's taking over like clockwork  
It's in my head,  
It's in my heart  
And it won't stop, it's like clockwork

Oh oh I don't wanna fight it  
Oh oh, you know that it's in my head  
It's in my heart,  
It's taking over like clockwork It's in my head,  
It's in my heart  
It's taking over like clockwork  
It's in my head,  
It's in my heart  
And it won't stop, it's like clockwork
