No One Had the Right

Cameron Glenn

The movie's over now
the end credits roll
It was an okay show
Actually kind of dull
You're out in the night
Chasing all the lights
Grit your teeth on the flight
Joke we're all going to crash and die
Goodbye
I saw a huge spider
It turned out to be a cute mouse
I got a broom
It was cute but it still freaked me out
California
Is like its own country
The Governor of Disneyland
Used to be Walt Disney
Have you seen
The fireworks blow up the sky
I couldn't look up
I saw them in the reflection of your eyes
Goodbye

No one thought it would happen
Quite like that that you'd ascend so high
No one really believed in you
You proved them wrong
You sailed by
Goodbye
And no one really thought it would happen
That this country could come to this
Still who cares that's all just noise
It's you I miss it's you I miss
The Falls roared down
Splashed back up
Created a mist
I miss you, I miss you
Goodbye
This is the last thing I'll ever do

Goodbye
