## Chiddy Bang

If this your favorite song, run it back  
Everybody sing along, run it back  
Stop playin', run it back  
Can't hear what you're sayin', run it back If this your favorite song, run it back

Stop playin', run it back  
Can't hear what you're sayin', run it back If this your favorite song, run it back

Everybody sing along, run it back  
Stop playin', run it back  
Can't hear what you're sayin', run it back We the realest tell 'em run it back  
Problems - money come with that  
I just ease the pain by chopping trees like a lumberjack  
Thundercat, you ain't even ready for my summer raps  
Coolin' on a minute I'm in to take the world, yeah I'm finna  
It's young kidster, ain't nobody hotter than  
Soon as I step in the building, shit she forgot her man  
College ran to the point I had to leave, was not a fan  
Maybe a little not my email get a lot of spam  
I'ma wild out, basically  
That means I probably don't care about what you say to me  
I got a couple bad bitches, Lord, pray for me  
Look in the mirror we the shit that they pray to be  
And they pay to me  
Roll the blunts make a mixed drink  
And don't you dare say that I ever care what a bitch think  
She ain't a single but for me she tryna lip sync  
And once the lips link, now that's instinct If this your favorite song, run it back  
Everybody sing along, run it back  
Stop playin', run it back  
Can't hear what you're sayin', run it back If this your favorite song, run it back  
Everybody sing along, run it back  
Stop playin', run it back  
Can't hear what you're sayin', run it back Yeah, I'ma need you to do it  
DJ run it back so the people move to it  
Yeah, I'ma need you to do it  
DJ run it back so the crowd go stupid Yeah, I'ma need you to do it

DJ run it back so the people move to it  
Yeah, I'ma need you to do it  
DJ run it back so the crowd go stupid Yeah, and I ain't even on that other shit  
We on Cloud 9, welcome to the mothership  
Second verse is dedicated to bitches that's medicated  
Off the pine tree, and she a dime piece  
If I forgot you then make sure that you remind me  
I'm only partying until I see my [?]  
When I achieve, so is you down to get, listen  
And livin', our lifestyle, they are so addictin'  
I said they always be amazed how I rap fly  
Hey yo, my eyes is currently upon your backside  
Why? I stay gone off the loud purp  
They gonna drop you if you ever try to crowd-surf  
I'll touch a ball and say my style hurts  
I get your number but I'm never gonna dial first  
But I'm lovin' that  
Go have fun with that  
'Fore I jump out the window, I tell 'em "run it back" If this your favorite song, run it back  
Everybody sing along, run it back  
Stop playin', run it back  
Can't hear what you're sayin', run it back If this your favorite song, run it back  
Everybody sing along, run it back  
Stop playin', run it back  
Can't hear what you're sayin', run it back If this your favorite song, run it back  
Everybody sing along, run it back  
Stop playin', run it back  
Can't hear what you're sayin', run it back If this your favorite song, run it back  
Everybody sing along, run it back  
Stop playin', run it back  
Can't hear what you're sayin', run it back
