

Girls On Girls

[Simon Townshend](#)

I 'm gonna share with you my darkest secret, tell you what I want
I'm gonna give to you what I've been keeping locked up far too long

Girls on girls

Telling me what's good for her

Girls on girls

Just what she's been doing for her

Boys on boys

Making it come true for her

Boys on girls want girls on girls

I am there with you when you hit the spot

Understanding why

The more you tell, the more I want to get inside your mind

Girls on girls

Telling me what's good for her

Black and white girls hanging on the rear of her

Boys on boys

Making it come true for her

Boys on girls want girls on girls

Girls on girls

She's telling me what's good for her
