

# Funky Little Baby

## Here Come the Mummies

Ahh whatcha say  
Ahh whatcha say  
Ahh whatcha say

My Queen sits high on her throne  
I built with my two hands  
When the King goes out at night alone  
She calls her back door man

(and I got a key)

I'm gonna build a temple  
But i'm better in a bunk  
Late at night she calls me  
to electrify the funk

I said a Queen  
she grooves me  
all night long  
My funky little baby

I said a Queen  
she grooves me  
all night long  
My funky little baby

Ahh whatcha say

She's got her King for the money  
and me for the show  
I'm her number one servant  
and i'm always good to go, go

That fat cat's always lazy  
He don't keep her satisfied  
I'm slim, trim, and tremblin'  
and shady on the side

I said my queen  
she grooves me

all night long  
my funky little baby

i said come here boy  
Come hither  
Come hither

She said come here boy  
Come hither  
Come hither

I said come here boy

That fat cat's always lazy  
He don't keep her satisfied  
I'm slim, trim, and tremblin'  
and shady on the side

I said a Queen  
she grooves me  
all night long  
My funky little baby

I said a Queen  
she grooves me  
all night long  
My funky little baby

I said a Queen  
she grooves me  
all night long  
My funky little baby

I said a Queen  
she grooves me  
all night long  
My funky little baby

Check it out
