

Velveteen

The Rose of Avalanche

Delux, sublime
Gigantic for all times and space
I wish for you the stars bow down
I wish for you their infinite crown
In Velveteen, I will surround
With Velveteen in your name
In Velveteen, I will surround
I'll keep this velvet in your name
I'll keep this velvet from the rain
So long, sleep well
Your purity speaks well as you lay
With all these flowers in your bed
With all these flowers you had left to give away
In Velveteen, I will surround
In Velveteen in your name
In Velveteen, I will surround
I'll keep this velvet in your name
I'll keep this velvet from the rain
