Bring Me Down

Emf

Many things have changed
But your absence changed it all
Many things are strange
You're the strangest of them all
I count the times it's rained
In the summer before the fall
Like nothing before felt the world was cruel
Had a feeling inside, hurt me, you hurt me
Bring me down
Bring me down
When I try
You bring me
Many things have changed
But your answer don't change at all
Your excuses lame
Your story's were tall
I count the wasted years

And the cracks in the wall
Like nothing before felt the world was cruel
Had a feeling inside, hurt me, you hurt me
Bring me down
Bring me down
When I try
You bring me
The times we cried
Those wasted years we lied
The times that we tried
You bring me down, you bring me down
Things change
Bring me down
Bring me down
When I try
You bring me
