

Sleep Together (Twisted Mix)

Garbage

I got you crawling up a mountain
Hanging round my neck
I got you twisted around my finger
Crawling round my legs
The emptiness
The craziness
Satisfy my hungriness
Darling how would it feel? If we sleep together
will you like me better?
If we cum together
we'll go down forever
If we sleep together
will I like you better?
If we cum together
Prove it now or never Make me a pretty person
Make me feel like I belong
Make me hard and make me happy
Make me beautiful
The emptiness
The craziness
Satisfy this loneliness
Darling how would it feel? If we sleep together
will you like me better?
If we cum together
we'll go down forever
If we sleep together
will I like you better?
If we cum together
Prove it now or never
