

# Don't Jump

## Tokio Hotel

On top of the roof  
The air is so cold and so calm  
I say your name in silence  
You don't wanna hear it right now  
The eyes of the city  
Are counting the tears falling down  
Each one a promise  
Of everything you never found I scream into the night for you  
Don't make it true  
Don't jump  
The lights will not guide you through  
They're deceiving you  
Don't jump  
Don't let memories go  
Of me and you  
The world is down there out of view  
Please don't jump You open your eyes  
But you can't remember what for  
The snow falls quietly  
You just can't feel it no more  
Somewhere out there  
You lost yourself in your pain  
You dream of the end  
To start all over again I scream into the night for you  
Don't make it true  
Don't jump  
The lights will not guide you through  
They're deceiving you  
Don't jump  
Don't let memories go  
Of me and you  
The world is down there out of view  
Please don't jump  
Don't jump I don't know how long  
I can hold you so strong  
I don't know how long Just take my hand  
Give it a chance  
Don't jump I scream into the night for you  
Don't make it true

Don't jump  
The lights will not guide you through  
They're deceiving you  
Don't jump  
Don't let memories go  
Of me and you  
The world is down there out of view  
Please don't jump  
Don't jump  
And if all that can't hold you back  
I'll jump for you
