

Good to Know

Dinosaur Jr.

Bring me over from the shoulder it's a slipping in I should
Ask you what it meant to leave it out believing [?] the rug And I'm crawlin' out the window
And I'm crawlin' out the window through the floor
You can help me find the key it is to door
Trouble starts remembering all he had before
Time's a wastin' on the people that seem scared and overrun
Sinkin' deep into the essence of the wasteland mountain come Not my love
Not my love
Not my love
Not my love And I'm callin' out to meet you
And I'm callin' out to meet this come through
And I tried to see a way to pull it through
And I know you know the only thing to do Not my love
Not my love
Not my love
Not my love Dreams [?] seems so inbetween [?] not enough
Tryin' to find what I don't see as a section [?] makes it tough Not my love
Not my love
