

Real Life Fairytale

Plumb

You ran around
Inside my head
When you passed out
I felt dead
And I realized
You make me live
And when my world
Starts to cave in
You jump inside
And take my hand
No matter where
You are there
Will I ever see
What you could see in me?
Or do I just believe
That we will always be and dream? Yeah
Well, I will never be
The same and when they see
That you and I were meant to be
They'll just believe why we are together
You are my light
You are my star
You are my sunshine
And my dark
You are the everything
I dreamed about
You are the guy
Who stole my heart
I am the girl
You're always fighting for
We have a love people dream about
A real life fairytale
I thought that I
Would be alone
You caught my eye
And I was home
And I realized
That this is love
I see the world

Through different eyes
I look at you
By my side
No matter where
You're always there
Will I ever see
What you could see in me?
Or do I just believe
That we will always be and dream? Yeah
Well, I will never be
The same and when they see
That you and I were meant to be
They'll just believe why we are together
You are my light
You are my star
You are my sunshine
And my dark
You are the everything
I dreamed about
You are the guy
Who stole my heart
I am the girl
You're always fighting for
We have a love people dream about
Dream with me
Make me believe
That this is a real life fairytale
You are my light
You are my star
You are my sunshine
And my dark
You are the everything
I dreamed about
You are the guy
Who stole my heart
I am the girl
You're always fighting for
We have a love people dream about
A real life fairytale
A real life fairytale
A real life fairytale
...
