

The Trooth

Reggie and the Full Effect

Today is the day I'm ripping you out
The pain you've given is worth 175
Leave me so I can have some sanity Get away from me
Im keeping a piece of you in a jar
So I can point and laugh at you
From now till forever You suck and it's time you left
I am tired of taking care of you
You never seemed to notice any ways
So pulling out your roots
Go ruin someone elses life
