

# In Shadows & Dust

## Kataklysm

in shadows & dust... in shadows & dust...  
your hero nailed to the cross as i walk through the valley of shadows & dust  
until the day we die  
never satisfied, never gratified  
no hope in the eyes of the lost  
we're animals in search for blood  
i step into your life and take control time stops the sky turns dark  
never again shall you feel godlike  
we're nothing divine  
never again shall you feel godlike  
emotions are swift like the winds  
never again shall you feel godlike in shadows & dust... in shadows & dust...  
reflections of yourself
