Promise Blender

Skillet

When I was a young boy
I saw a vision of Your face
So I made my first promise to YouYeah, You know, it took some time
But I love You, now I realizeI am a promise maker
I am a promise breakerOn the road to faithfulness
I sometimes forget Your name
I can still see Your faceBut time after time, I hear You calling my name
I got a name for me, I got a name for me
I got a name for me, I got a nameI am the promise maker
I am the promise breaker
I am the promise maker
I am the promise breakerI am the promise maker
I am the promise breaker
I am the promise maker
I am the promise breakerI am the promise maker
I am the promise breaker
I am the promise maker, yeahOn my knees, for the last time
I could rip my heart out every day
I made my last promise to YouYeah, I could cry, I could cry a million tears a day
All I would hear You, all I would hear You say isYou are the promise taker
You are the promise taker
You are the promise taker
Put them in your promise blenderYou are the promise taker
You are the promise taker
You are the promise taker
Put them in your promise blender
