

# Asleep At The Wheel

## The New Amsterdams

The light I followed tonight is only as bright as the highway  
The sight, try as I might, I can't keep the weight from my eyes  
We never will make load in if the ephedrine don't kick in  
The light I followed tonight is only as bright as the  
highway  
The sight, try as I might, can't keep the weight from my eyes  
We never will make load in, we never will make load in  
If the ephedrine don't kick in
