

Never Leave a Friend Behind

Status Quo

Chasing out the door
getting up the floor
running from a problem
like you've never run before
feeling kinda strange
never outta range
you duck another volley
then you turn around the pagebut you never leave a friend behind
you never leave a friend behind
no you never no never don't you ever
leave a friend behind
Burning like a dog
sweating like a hog
eating up the streets
where nobody ever meets
looking for a party
running outta money
nowhere you can turn
yeah someone's on the runbut you never leave a friend behind
you never leave a friend behind
no you never no never don't you ever
leave a friend behindI'm on the tour bus
getting such a mess
oh when we said blood brothers
oh we didn't mean this
no we didn't mean this
Chasing out the door
getting up the floor
running from a problem
like you've never run beforebut you never leave a friend behind
you never leave a friend behind
no you never no never don't you ever
leave a friend
you never leave a friend behind
no you never leave a friend behind
no you never no never don't you ever
leave a friend behind
