

# For You

## Silent Circle

I love you when you touch me,  
I love your kisses on my skin,  
I love you when you ask me:  
"put out the light and please come in"  
For you I'd fight the fiercest dragon,  
For you I freeze in winter nights,  
For you I'd catch your fall in sunbeam,  
For you I give up all my rights  
When I feel your lips come near up  
I see the magic in your eyes  
I love you when you touch me,  
I love your kisses on my skin,  
I love you when you ask me:  
"put out the light and please come in"  
I love you when you call me  
Yeah if my princess seems to tell  
To love you makes me happy  
The world explodes but I don't care  
I don't care  
For you
