

Asleep

[Martin Courtney](#)

Won't you please just let me be
In the middle of a dream
You know I'm still asleep Early in the morning
Consciousness if forming
Do not disturb me Close my eyes
Its so weird to be alive
At the helm and overwhelmed
Credit's rose
I pull back into the phone
Rejected dream on a torn screen So just push back any plans
As I'm sure you'll understand
This isn't odd to me Rapid eye
Its so weird to be alive
At the held and overwhelmed
Credit's rose
I pull back into the phone
Rejected dream on a torn screen Won't you please just let me be
In the middle of a dream
You know I'm still asleep
