Never Back Down

T-Gunn

What have you done, putting aside all I feel?
Driving me out your hand on the wheel
I'm only a friend when you depend upon me
Taking your time to get back on your feetI don't mind if lies keep talking
Never back down, it hurts me so much
I don't mind this I'm glad to leave the earth
It haunts me, never back down
Never back down, get it backWhat have you done putting aside what's real?
Driving me out your hand on the wheel
I'm blaming myself as if nobody else is to blame
Taking your time to get back to your gameI don't mind if lies keep talking
Never back down, it hurts me so much
I don't mind this, I'm glad to leave the earth
It haunts me, never back down
Never back down, get it back
