

# Bitter Sweet

## King's X

Killing a bird with a knife  
Turning away from her life  
All that I do isn't right

Losing my way in the night  
Ever reading... something's bleeding in my soul

And I can't seem to fill up the hole

And I love you... thinking of you... bitter sweet

So I bury the feeling and empty my head

Just to sleep... too deep  
Watch me suffer... try to cover up the pain

And I stand on the roof in the rain

And I love you thinking of you... bitter sweet  
So I bury the feeling and empty my head

Just to sleep... too deep
