Sad

Mattybraps

Sad
Why you over there looking all sad
Feeling all alone by yourself andNobody around understands ya
Don't be sad
All the good times you'll have
Promise all of this will pass
Trust me we can make this lastSome nights gotta sit and dry your eyes
To the moon light tryna get your mind right
You can try again when the sun rise
I'll be right here, I'll be by your sideSad
Baby don't you be sad
Why you been mad
Baby don't be sad
Man, they don't know
They don't even got a clue
How you feel
All the pain
All the stuff you're goin through
Feel alone, by yourself
Even in a crowded room
All a haze, every day
Window foggy with no view
Lay in bed, what's the point
Playin music in your room
I'm right here, as your friend
You know I give you the truth
Life is tough, I agree
Trust, I can feel it too
But I care, that I do
Promise we gon make it through, but
Some nights gotta sit and dry your eyes
To the moon light tryna get your mind
right You can try again when the sun rise
I'll be right here, I'll be by your sideSad
Baby don't you be sad
Why you been mad
Baby don't be sadI know, I know, I know, I know
It may seem like nowhere to go
But promise everything will be alright

Just keep holding on 'till the sun riseI know, I know, I know, I know
It may seem like nowhere to go
But promise everything will be alright
Just keep holding on 'till the sun riseSad
Baby don't you be sad
Why you been mad
Baby don't be sad
