

# Navigate Me

## Cute Is What We Aim For

I'm creeping your way  
And these sheets aren't stopping me  
Because I'm gonna meet you face to face  
And I'm gonna start from your waist  
Up through your navel  
And we're approaching such a place  
This is where we both get scared  
This is where emotion flares  
This is where we both prepare, yeah  
Navigate me through your body, navigate me  
Navigate me through your body, navigate  
I love the way you tug on top of me  
So navigate me through your body  
I'm creeping your way  
And these sheets aren't stopping me  
That's right, it's quite simply  
These sheets aren't stopping me  
'Cause my mind's on a mission  
And a mind on a mission  
Is a mind that you just set free  
I'm creeping your way, I'm creeping your  
This is where we both get scared  
And this is where emotion flares  
This is where we both prepare  
Navigate me through your body, navigate me  
Navigate me through your body, navigate  
I love the way you tug on top of me  
So navigate me  
'Cause a mind on a mission  
With enough ammunition  
And the right proposition  
Is a mind that you might set free  
'Cause a mind on a mission  
With enough ammunition  
And the proper position  
Is a mind that you just set free  
I love the way you tug on top of me  
So navigate me  
Navigate me through your body, navigate me

Navigate me through your body, navigate  
I love the way you tug on top of me  
So navigate me  
Navigate me through your body, navigate me  
Navigate me through your body, navigate  
I love the way you tug on top of me  
So navigate me through your body  
I'm creeping your way  
I'm creeping your way
