Shadow

Darden Smith

I tried anger, much denial
Lifes a trial start to end
Had to travel, go through all that
Just to know that youre my friendSo I will hold you like a lover
Like a brother in the dark night
Walk beside me, be my shadow
And I wont have to be afraidAll through my younger days
I tried everything I could to get away
Here you are
You were never farSo I will hold you like a lover
Like a brother in the hard time
Walk beside me, be my shadow
And I wont have to be afraidThought I could fly
And I tried to leave you behind
I came down
You were still aroundSo I will hold you like a brother
Long lost lover in the hard night
Walk beside me, be my shadow
And I wont have to be afraidWalk beside me, you are my shadow
And I wont have to ever be afraid
