

# Bitter Tears

## The Magnetic Fields

Bitter tears keep me going  
Through the years, freely flowing  
What have you done  
Only a gun could stop these bitter tears  
The endless streets I walk along  
You made them seem pretty  
But now I dream in country songs  
And wake in New York City  
And the only beauty is  
Is the world seen through the tears  
Bitter tears keep me going  
Through the years, freely flowing  
What have you done  
Only a gun could stop these bitter tears  
I cry because it looks so good  
I cry, why not, it's free  
And there's nothing more interesting  
Than crying constantly  
And as I tell everyone  
Cryin' all the time is fun  
Bitter tears keep me going  
Through the years, freely flowing  
What have you done  
Only a gun could stop these bitter tears
