Over When It's Over

Eric Church

Its over when it's over aint it baby aint it
rips you like a dagger can't it baby can't it
Wish we could do it over damnit baby damnit
We had it in the air but just couldn't land it
It's the first snap of the last straw, where regrets outlast the alcohol
It's a cold sweat in an empty bed, and dreams are like a knife when your hanging by a thread
it aint no maybe we can make it if we just play the right cards
Nah Its over when it's over aint it baby aint it
rips you like a dagger can't it baby can't it
Wish we could do it over damnit baby damnit
We had it in the air but just couldn't land it
It's a white flag, Its a stop sign
It's the last long drag on a marlboro light

It's a long night of beatin up the past
Knowin the first light is gonna hit you back
This aint no gone for good drill or no goodbye fall tomorrow..... it's over.....it's over..... its
Ohhhhhhhhhhhhhh
This aint no baby wait we can make it work
it's a blank page when your out of words
yeah it's a flat line it's a heart attack
yeah it's too far gone to be shot back
it's a one way with nowhere to turn
it's a no brakes baby crash and burn
aint no map gonna ever bring us back from where we are
it's just over when it's over aint it baby aint it
rips you like a dagger can't it baby can't it
Wish we could do it over damnit baby damnit
We had it in the air but just couldn't land it
