Good

Morphine

You're good, good, good, good
You're good, good, good, you're goodSomethin' tells me, somethin' tells me
Somethin' tells me, you can read my mind
Somethin' tells me, somethin' tells me
Somethin' tells me, you can read my mindSomethin' tells me, you can read my mind
Your brain is callin' to me one more timeYour brain, your brain, your brain
Is callin' to me one more time
Your brain, your brain, your brain
Is callin' to me one more time, you're goodYou push, push, push so good
You push, push, push, you're goodSomethin' tells me, somethin' tells me
Somethin' tells me, you can read my mind
Somethin' tells me, somethin' tells me
Somethin' tells me, you can read my mindSomethin' tells me, you can read my mind
Your brain is callin' to me one more time
Somethin' tells me, you can read my mind
Your brain is callin' to me one more timeYour brain, your brain, your brain
Is callin' to me one more time
Your brain, your brain, your brain
Is callin' to me one more timeYou're good, good, good, so good
