

Good

Morphine

You're good, good, good, good
You're good, good, good, you're good
Somethin' tells me, somethin' tells me
Somethin' tells me, you can read my mind
Somethin' tells me, somethin' tells me
Somethin' tells me, you can read my mind
Somethin' tells me, you can read my mind
Your brain is callin' to me one more time
Your brain, your brain, your brain
Is callin' to me one more time
Your brain, your brain, your brain
Is callin' to me one more time, you're good
You push, push, push so good
You push, push, push, you're good
Somethin' tells me, somethin' tells me
Somethin' tells me, you can read my mind
Somethin' tells me, somethin' tells me
Somethin' tells me, you can read my mind
Somethin' tells me, you can read my mind
Your brain is callin' to me one more time
Somethin' tells me, you can read my mind
Your brain is callin' to me one more time
Your brain, your brain, your brain
Is callin' to me one more time
Your brain, your brain, your brain
Is callin' to me one more time
You're good, good, good, so good
