

Cry for Help

Dead Man Winter

Tell me if its ok
To turn the lights off
Well the band looks kinda rough but they're playing your favorite song
You know its alright
Ya its alright
To go away for awhile

I might waste some time and i might let you down
But if you need more than that
I guess ill see you around
Honey itâ€™s a short life
And itâ€™s a bright life
In a beautiful dream

Just a painless joke
Cant you hear it now
A solitary note
But itâ€™s a cry for help

My baby found some meaning in everyday life
So i called her asking for some friendly advice
She said late night and bar fights will bring you down to the ground

Just a painless joke
Can you hear it now
A solitary note
But itâ€™s a cry for help
