Trust

Rotten Sound

Promises made for commitments
With insane meanings
Nobody was able to see through
Their fake sincerity and dishonestyOpenness outside their twisted minds
Is deceiving everyone around them
They have said many things
They never meant to sayThey can live with the lies coming out of their mouths
They have no second thoughts even when
They have deceived their precious beloved community
The simple human race is deceived by their leadersThe trust was gained over a very long time
Until they were nailed
Openness outside their twisted minds
Is deceiving everyone around them
In every possible way they know
