

# 25 MC's

Wiley

ive lived in conditions way colder  
minus 40 remember i told ya  
at some point of your career youve gotta be an owner  
ownership lives in those who make that paper  
i know we aint all in sync now but were gonna be later  
25 MC's backstage chilling  
man never drinking man never billing  
i knew this already but my scene's winning  
change your whole culture my team did it  
25 MC's backstage chilling  
man never drinking man never billing  
i knew this already but my scene's winning  
change your whole culture my team did it  
when they offered this much i said no  
when they offered that much i said no  
when they added some more i said no  
i told them i run this sector  
i roll in a team with Skepta  
Wiley's a road yute man sold food in a blacked out Vectra  
25 MC's backstage chilling  
man never drinking man never billing  
i knew this already but my scene's winning  
change your whole culture my team did it  
25 MC's backstage chilling  
man never drinking man never billing  
i knew this already but my scene's winning  
change your whole culture my team did it  
call me up around half past 10  
like Wiley when we going radar again  
i be like lemme check whos on roll  
so i can make sure its cool with them  
i know so many MC's who are all fire  
if it aint bars and skills then i dont wanna listen  
i like to hear whats better thats my main mission  
25 MC's backstage chilling  
man never drinking man never billing  
i knew this already but my scene's winning  
change your whole culture my team did it  
25 MC's backstage chilling

man never drinking man never billing  
i knew this already but my scene's winning  
change your whole culture my team did it
