Heroes

Masterplan

Are we caught between good and bad?
It's all just said and done
Longing for a better way
The feeling is so strongTry to mend your broken ways
Why should we live within a haze?We're the heroes of a new world
The Masterplan's rising
Send freedom all over the globeWilling now to pay the price
Just call it by the name
Unlock the gate to paradise
It's time to stop the gameHow can we fly with broken wings?
Realize we're strong like kingsWe're the heroes of a new world
The Masterplan's rising and dreams will come true
Sending freedom like a warming rain
We show you the magic you've never seen arise above youWe must cast aside our misery
Let's search for final libertyWe're the heroes of a new world
The Masterplan's rising and dreams will come true
Sending freedom like a warming rain
We show you the magic you've never seen arise above you
