

# God Forbid

P.o.d.

God forbid  
That I should lose, lose my mind  
God forbid  
God forbid  
That I should lose, lose my mind  
God forbid  
We have cause to be uneasy  
The evolutionary process has begun in a world that hates you  
These secrets revealed belong to us  
And when worst comes to worst  
My peoples come first, my peoples come first  
God forbid  
That I should lose, lose my mind  
God forbid  
Insanity is just a thought away

God forbid  
That I should lose, lose my mind  
God forbid  
Balancing the good that's left in me  
Too many things going wrong around us  
Too much to be done and so little time  
We're so used to bowing down that we forget how to stand up  
And we settle, settle for last in line but not this time  
God forbid  
That I should lose, lose my mind  
God forbid  
Insanity is just a thought away  
Balancing the good that's left in me  
Forbid
