Stay the Night

Jennifer Paige

Don't know what you intended
Am I just part of your game
Boy, you started a fire, I can't identify it
You're only fanning my flame
It's the rule of desireDon't keep me waiting here for your love
Come and show me what you're made ofStay the night and I'll decide if it's right
'Cause I won't wait forever baby
Stay the night come inside show me why
I should let you stay the nightUse your imagination
Don't treat me like the rest
Show me you'll do it better
This kind of situation
Requires only the best
Boy, it's now or neverI'm just waiting here for your love
Come and show me what you're made ofStay the night and I'll decide if it's right
'Cause I won't wait forever baby
Stay the night come inside show me why
I should let you stay the nightThis could go either way
Don't just stand there at my door
'Cause [Incomprehensible]
I can't fight this feeling anymore
No more, no moreStay the night and I'll decide if it's right
'Cause I won't wait forever baby
Stay the night and come inside
Show me why IStay the night and I'll decide if it's right
'Cause I won't wait forever, baby
Stay the night and come inside
Show me why, I'm not sure of youStay the night and I'll decide if it's right
'Cause I, 'cause I
Stay the night, come inside
Show me whyStay the night and I'll decide if it's right
'Cause I won't wait forever, baby
Stay the night, come inside
