

Love

Lita Ford

I love the way you look when I'm down on my knees
You call me "Sugar Mamma" and you always say please
Whatever you want, the kinkier the better
Better tell me your kinky wants baby go get the leather
The handcuffs blind folds, hit me I'm a bad girl
Good boy! Just like that guy I used to enjoy I love to love you
You love me so good
It burns, it burns me deep inside
I love to hate you
You hate me so good
It burns, it burns me deep inside One soul for two bodies leather will never die
Infatuations breed temptations, makes us so high
We're soul mates, treasure kids, sticky sweet
Love every inch of your body, gonna start with your feet
You're my God, i worship you every night
Give me your nectar, Big Daddy just right
(not sure this line)
I'm your prisoner baby and you're in control I love to love you
You love me so good
It burns, it burns me deep inside
I love to hate you
You hate me so good
It burns, it burns me deep inside Love turns to hate turns to love turns to hate
They're one and the same
One two One two
Big Daddy burn me deep inside
Big Daddy burn me deep inside I love to love you
You love me so good
It burns, it burns me deep inside
I love to hate you
You hate me so good
It burns, it burns me deep inside L.O.V.E. That's what you do to me
L.O.V.E. You love to love me
Love you through the night and hate you through the day
But you're so damn good I cant throw you away
