

Down Inside Of You

Fuel

Never thought id be this way
Hung on every word you say
Scars that you gave to me
I earned all to eagerly
'Cause down inside of you
Deep inside of you
Down inside of you
Is all of heaven and hell
Everyday is all the same
Take the pleasure with the pain
Things that you put me through
Never is enough for you So I'll fly
Find another life
I know somewhere its right
So why can't I forget you
