

You're Not Easy To Forget

[Kitty Wells](#)

I make all the honky tonks and taverns just to see who's hanging round
And there I try to drown my sorrow just because you let me down
I can't get someone to kiss me I can't get someone to care
But when I need someone to who loves me you're not easy to forget
[steel - fiddle]
Last night while dancing with another and gazing in those eyes of blue
I just knew I could never love him if I'd never dated you
I can't get someone to kiss me...
