

# Let the Juices Flow

Gerald Levert

You're not yourself  
Come on, let me rub your back  
Kiss on your neck like I used to do  
See you're tense, you gotta let go, you gotta let go Won't you let the juices flow?  
Flow on, flow on, flow on  
Won't you let the juices flow?  
Flow on, flow on, flow on Girl, let down your hand, have no fear  
I'm gonna take good care of you  
But you gotta open up, show me some love  
I'm sure that I can pull you through See there ain't nothin' wrong with  
Throwin' on some luther or some Marvin Gaye  
Baby, just relax, you can reach climax  
Trust me girl, don't tell me no Won't you let the juices flow?  
Flow on, flow on, flow on  
Won't you let the juices flow?  
Flow on, flow on, flow on And baby, forget about the kids or what your ex-boyfriend did  
Tonight just let the feelings flow  
See we won't tell no one we had so much fun  
Keep it on the down low, down low, down low Put on your favorite dress or better yet  
Girl, don't put on anything  
I'll leave it up to you what we're gonna do  
We can do it fast or slow Won't you let the juices flow?  
Flow on, flow on, flow on  
Won't you let the juices flow?  
Flow on, flow on, flow on See I wanna make you smile  
I wanna make it right  
Make you see the light  
Everday and night baby Give you all the things you need  
Never let you down always be around  
When you're feelin' down  
Make you scream and shout Won't you let the juices flow?  
Flow on, flow on, flow on  
Won't you let the juices flow?  
Flow on, flow on, flow on Won't you let the juices flow?  
Flow on, flow on, flow on  
Won't you let the juices flow?  
Flow on, flow on, flow on Won't you let the juices flow?  
Flow on, flow on, flow on  
Won't you let the juices flow?

Flow on, flow on, flow on

...
