Got It

Marian Hill

I got this thing

Gonna blow your mind

Pulling the string

Helping you unwind

You want to knot

But it can't be tied

You want to steal

Cuz I can't be bought

I got this

Gonna tie your tongue

Step in my ring

You'Il be out-round run

You want to feel

But you got no touch

You think it's love

But you think too much

I got it
I got it
I got it

I got this thing
Gonna break you own
You're crumbling
Till you hit the ground (ground, ground, ground, ground, ground, ground)
You wanna try
Come and have your taste
This thing won't stop
Till you can't see straight

I got it [repeat]
I got this thing
