Happy Wasted

Superheist

Cut loose with you and your crew
Hey dog, you do what you wanna do
No crime, just high defining times
You won't need a sick mindRight here in this place
We'll get you while you're movin'
Despair, repair, it's where?
It's right here in your faceNo one can tell you what to do
It's all up to you
Your mind is set
So follow throughTeenage angst and you're out tonight
And you're happy wasted
No one can tell you what is right
When you're happy wastedWho's got you in tow? Who's ridin' your show?
Who's makin' you break out? I don't know
I don't like what I see, I don't like what you be
I don't like what you are in front of meWho goes, who flows
Who tows the line in ya profile?
Freestyle and fall by the wayside
It's your space to defaceAnd yeah, hell watch ya back, kid
Right now, it's a jungle and emotive
In time, you'll find the sign to define
All the things in your lifeWho says you can't decide?
Are you happy wasted?
Is this your suicide?
Are you happy wasted?
